PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DLA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housin $\hat{\mathcal{F}}$ areas, (E) storage areas, (E) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage 'maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank? assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (8) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

This fenced installation covers approximately 26 acres in the eastern part of Zhitomir (Figure 1). It is rail and road served, and a sod landing field is located about two kilometers to the east (Figures 2 and 3).

The installation contains 11 tanks ranging in diameter from 15 to 5 feet, one adminis-

tration-type building, one storage building, and seven support buildings.

Between the installation was covered by KLYHOLE missions and has shown no significant change.

In the northwest of Zhitomir there is another petroleum storage installation.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur from the Zhitomir rail yards extra the western end of the installation and curves along the south side.

Road Service

An all-weather road from Zhitomir to Korostyschev runs along the north side of the installation.

Aircraft Landing Strips

There are no landing strips in the immed-

fate area. Zhitomir Airfield, a sod-surfaced landing area approximately 3,400 by 4,100 feet, is located approximately two kilometers to the east.

POL Storage Area

Zhitomir Petroleum Storage has II tanks, three 45 feet, five 25 feet, and three 15 feet in diameter: one administration-type building; one storage building; and seven support buildings.
